

# Direct Clo

On homepage of the METRANS company at <http://www.metrans.eu> there was link „Direct info“ divided in two sublinks:

Direct Info – serves to enter the original application Direct Info, extended now also with custom information.

Direct Clo – new publicly available application.

**METRANS** – Container terminals and all-in intermodal service in Central Europe

Home > Services > Company > **Direct info** > Direct booking > Container Trading > Contact

Direct info > **Direct clo**

**DEDICATED TO SERVICE**

**PRODEJ KONTEJNERŮ ZDE!**

## Welcome to METRANS!

We provide full range of all-in just-in-time intermodal rail-road transportation services operating own shuttle trains with cargo in maritime containers to / from **the Czech Republic, Slovakia and Hungary** connecting this territory by rail with major European ports, including **HAMBURG** and **BREMERHAVEN**, or southbound rail connection to **KOPER**, Trieste, Rijeka with network of own container terminals and depots, including railway hub **PRAGUE Uhřetěves**, the largest and the most sophisticated container terminal in Central Europe.

Read more on our website and feel free to contact us any time.

The following form appears after clicking the link „Direct clo“, where the container number is to be entered in specified form (i.e. 4 letters, space, 6 digits, dash, check digit).

Confirm by pushing Enter or clicking the button „Zobrazit celní informace“ (show the custom information) after that.

APEX\_PUBLIC\_USER

Zjištění celního stavu

### Prosím zadejte číslo kontejneru

Příklad: AAAA 404165-4

Kontejner

[Zobrazit celní informace](#)

### Info

Tento importní kontejner není na terminálu Praha - Uhřetěves

If **import** container is concerned and date of issuance of MRN is **not older than 10 days**, there appears following information in column Celní stav:

- Kontejner - container number
- Typ - type, resp. size of container
- Váha - total cargo weight
- MRN číslo/podčíslo - MRN custom number by arrival of block train to terminal
- MRN vystaveno - date of issuance of MRN
- Zpracovatel - customer service department employee responsible for this particular transport order

APEX\_PUBLIC\_USER

Zjištění celního stavu

Celní stav

Kontejner	Typ	Váha	MRN číslo/podčíslo	MRN Vystaveno	Zpracovatel
TTNU 593240-1	40'	15408	10CZ17030015HH0UV4 / 9	07:27:55 - 15.02. 2010	K. Bayer

# Direct Info

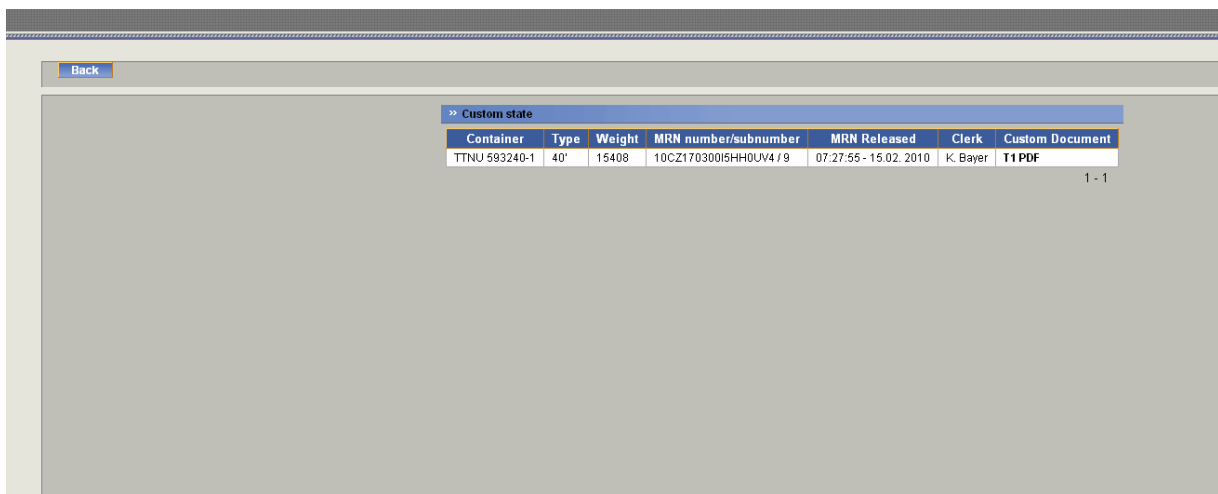

The original application Direct Info is extended with new function of providing custom information with possibility of showing the T1 document accompanying the shipment.

After login in Direct Info and entering the container number it's possible to open a page with custom information by clicking the „CUSTOM“ button.

If logged-in user is allowed to be provided with information to requested **import** container and date of issuance of MRN is **not older than 10 days**, the following table appears.

Container	- container number
Type	- type, resp. size of container
Weight	- total cargo weight
MRN number/subnumber	- MRN custom number by arrival of block train to terminal
MRN Released	- date of issuance of MRN
Clerk	- customer service department employee responsible for this particular transport order
Custom Document	- link to a pdf file with T1 document, with clicking Acrobat Reader is opened

The screenshot shows a web application interface with a 'Back' button at the top left. Below it, there is a section titled '>> Custom state' containing a table with the following data:

Container	Type	Weight	MRN number/subnumber	MRN Released	Clerk	Custom Document
TTNU 593240-1	40'	15408	10CZ17030015HH0UV479	07:27:55 - 15.02.2010	K. Bayer	<a href="#">T1 PDF</a>

At the bottom right of the table, there is a page indicator '1 - 1'.
